

Pathfinder

Wristwatch with GPS tracking

You are never far from home with a **Pathfinder** GPS wristwatch.

The **Pathfinder** is an effective, accurate and reliable way of locating someone when they get lost. Ideal for people living with memory loss or those who wish to remain active and independent.

The **Pathfinder** watch is available to people living in Surrey and the surrounding areas.

Independent, but never alone.

How does it work?

The **Pathfinder** GPS wristwatch is linked using mobile phone technology to our monitoring station. Simply wear the **Pathfinder** like a regular watch and with no distance limits you can be found quickly and easily. **Pathfinder** provides reassurance when it is needed the most.

Features of **Pathfinder** include:

- **24 hour monitoring, 365 days a year**
- **Accurate GPS tracking**
- **Two-way voice calling**
- **SOS button for emergencies**
- **Safe-zone technology- sends alerts every time the wearer leaves/enters a designated area**

How much does it cost?

The **Pathfinder** wristwatch costs less than one pound a day. Installation is completely free and a member of the Surrey Telecare team will come to your home and show you how it works. There are no minimum contracts, the service is tailored to your specific needs.
