| N/A | EBC DP Cobham Business Improvement | 30/09/2021 | Elmbridge Borough Council | The Mosaic Partnership | The Covid19 global pandemic has negatively impacted businesses and high streets alike. Nationally 17,500 chain stores closed across Great Britain. The net level of closures, taking into account new openings (9,877) was almost a third higher than in 2019 with vacancy rates hitting 14.1% in the first quarter of 2021. Even as we progress with the government reopening roadmap, the footfall in our high streets is still 25 percent below pre-pandemic levels with trends towards shoppers favouring out of town shopping centres and online purchases reinforced by covid-19. The latest figures for August 2021 show that 38% of non-food purchases are made online highlighting the difficult trading conditions faced by our high streets locally. | 20/09/2021 | 29/09/2021 | Direct Award | 31,500.00 | 29/09/2024 | |
| N/A | EBC PN - Elmbridge Leisure Operator Legal Services | 22/09/2021 | Elmbridge Borough Council | Browne Jacobson | The Leisure operator contract covers the operation of the Excel Leisure Centre, Hurst Pool and Sports Hub facilities. Collectively these facilities attract over 1,000,000 visits per year. The leisure contract serves a diverse range of residents and visitors and plays a key role in improving the health and well-being of residents and visitors. Fundamentally, it contributes to the reduction of health inequalities. | 24/09/2021 | 22/09/2021 | Direct Award | 20,000.00 | | 31/03/2023 |

| N/A | EBC HD Eloquent Ransomware Mitigation Tool | 16/07/2021 | Elmbridge Borough Council | Eloquent | Cyber security incidents are on the increase. In 2020 it is estimated there was a 31% increase in cases at the height of the pandemic (May-June 2020). It is estimated that Councils are hit by 800 cyber-attacks an hour. Ransomware is considered by the National Cyber Security Centre (NCSC) to be the biggest threat. Not only do attackers hold data hostage, they threaten to publish it as well (e.g. Hackney October 2020, stolen data published online by ransomware organisation responsible for the attack). Attackers also target back-ups so that recovery is impossible and data loss inevitable. Redcar and Cleveland say the ransomware attack they experienced cost £10m to recover. A Surrey District has recently (February 2021) had their network compromised. Hackney are still experiencing issues 6 months later and have still not recovered their Children's data. Weak user credentials are a significant factor in ransomware attacks | 01/08/2021 | 16/07/2021 | 01/08/2021 | 2634.88 pa | 01/08/2024 | Yes |
