Why are we reviewing?

Elmbridge Borough Council is conducting a Polling District and Polling Place Review following the electoral review of [Surrey County Council by the Local Government Boundary Commission for England \(LGBCE\)](#). Elmbridge Borough Council had previously conducted a Polling District and Polling Place Review at the beginning of 2025 to allow for these changes, however this was subsequently postponed due to the Government's announcement on Local Government Reorganisation.

It has now been confirmed that two new Unitary Councils will be established in Surrey. As a result, Elmbridge Borough Council must conduct an additional Polling District and Polling Place Review. This review is necessary to allow for the different electoral boundaries, such as Borough Wards, existing Surrey County Divisions, and the new East Surrey Wards, (formerly Surrey County Divisions). It must ensure that the (Acting) Returning Officer can administer these different combinations of elections efficiently.

This review will therefore supersede the Polling District and Polling Places Review undertaken in January 2025.

The review will have regard to the guidance issued by the Electoral Commission on '[Reviews of polling districts, polling places and polling stations](#)'

What will the review consider?

This review will look at:

- Polling Districts are the areas created by the sub-division of a Constituency, Ward or Electoral Division into smaller segments. Within each polling district a polling place can be determined which is convenient to electors.
- Polling places, which are the locations, normally the buildings in which polling stations are sited.

What will not be considered?

- Parliamentary Constituency, Borough Ward, County Division and Parish Boundaries cannot be changed by this review. This review is only concerned with the arrangement of polling districts and polling places. However, the review must have regard to the arrangements of these different boundaries and ensure the polling district boundaries align with those for the proper conduct of elections and referenda.
- Community identity. Whilst this is a relevant consideration for an electoral boundary review (e.g. when making changes to Borough Ward boundaries), it is not relevant for the purposes of a polling district and polling place review, which is an incidental process to ensure that the arrangements of the polling districts and places are:
 - Convenient for voters; and
 - Efficient for the (Acting) Returning Officer to conduct elections according to those boundaries.

Timetable for review

The Council is required to publish notice of the holding of a review. This has been carried out by way of a public notice posted at the Civic Centre, Esher and on the Council's website.

The period of public consultation runs between 11 December 2025 and 19 January 2026.

The timetable for the review is set out below:

Date	Activity
12 December 2025	Formal notice of review.
12 December 2025	Commencement of public consultation period.
By 19 January 2026	Publication of (Acting) Returning Officer's comments.

Date	Activity
19 January 2026	End of public consultation period.
20-21 January 2026	Consideration of all representations and final proposals agreed by the Chief Executive (Proper Officer).
22 January 2026	Review concluded.
1 February 2026	Publish revised register of electors.

How is the review conducted?

Certain factors are taken into account when considering the suitability of the current polling districts and polling places and in identifying new ones.

Polling Districts

The following should be considered as part of the assessment of the suitability of polling district boundaries:

- Are the boundaries well-defined? For example, do they follow the natural boundaries of the area? If not, is it clear which properties belong in the polling district?
- Are there suitable transport links within the polling district, and how do they relate to the areas of the polling district that are most highly populated?
- Are there any obstacles to voters crossing the current polling district and reaching the polling place e.g., steep hills, major roads, railway lines, rivers?
- Do the polling districts follow the different electoral boundaries (such that the (Acting) Returning Officer can manage the different combinations of elections and referenda within each geographical area), such as Parish and Borough Wards, County Divisions and Parliamentary Constituencies? For instance, a County Division may overlap with several Borough Wards, and therefore the division of the polling districts within that division must allow each combination of those polls to take place if required.

Polling Venues

There are a number of factors that will need to be considered when reviewing existing polling places or when assessing new polling places, including:

Factor	Consideration
Size	<p>Can it accommodate more than one polling station if required?</p> <p>If multiple polling stations are required, is the polling place capable of accommodating all voters and staff required to provide a good service to voters?</p> <p>Is the size sufficient to provide necessary private areas or privacy screens for photographic identification checks?</p> <p>Is the size big enough to ensure the flow of voters and reduce the risk of congestion and queues even where there is a high turnout?</p>
Location	<p>Is it reasonably accessible within the polling district?</p> <p>Does it avoid barriers for the voter such as steep hills, major roads, rivers etc.?</p> <p>Are there any convenient transport links?</p>
Availability	<p>Is the building readily available in the event of any unscheduled elections?</p> <p>Is there any possibility that the building may be demolished as part of a new development?</p>
Accessibility	<p>Is the building accessible to all those entitled to attend the polling place?</p> <p>Can the building accommodate any equipment provided to support disabled voters?</p>

Polling Stations

When assessing the suitability of a room or area for use as a polling station, the (Acting) Returning Officer should consider how the size and layout would allow for the most effective throughput of voters taking into consideration the length of time it may take to check voters' photographic ID whilst ensuring the flow of voters and reducing the risk of congestion and queues. Those instances where there is a high number of electors in the polling station at any one time on polling day should also be considered.

Each polling station should be designed to provide suitable conditions:

- for the elector to show their photographic identification in private if requested as well as vote in private
- for staff to conduct elections in an efficient and effective manner and
- for those entitled to observe the voting process to do so without compromising the secrecy of the ballot

Use of schools

It should be noted that for the purpose of taking the poll in England and Wales, the (Acting) Returning Officer is entitled to use, free of charge, schools maintained or assisted by a local authority as well as those schools that receive grants made out of moneys provided by Parliament.

This includes academies and free schools.

Who will we consult?

This consultation document will be published on the Council's website. It will also be sent to Councillors, Members of Parliament, local parties and stakeholders with expertise in disability and accessibility.

In addition, any elector within Elmbridge Borough Council or within either the Esher and Walton Constituency or the Runnymede and Weybridge Constituency may make a representation on the proposals.

The Council is also required to consult the Acting Returning Officer for every Parliamentary Constituency that is wholly or partly within its area. This means the

Acting Returning Officer for the Runnymede and Weybridge Constituency must be consulted on the proposals.

How to submit your views

Any persons wishing to make comments or representations regarding the proposals may do so.

Any representations you wish to make should be received before **5pm on Monday 19 January 2026**.

You can respond by:

- Completing the [online form](#)
- Email to electoral@elmbridge.gov.uk
- Post to Democratic and Electoral Services, Elmbridge Borough Council, Civic Centre, High Street, Esher, KT10 9SD

Please note that all proposals and comments received must be published and available to view on the council's website at the conclusion of the review.

The Chief Executive, (the Proper Officer) will make the final decisions by 22 January 2026 and the outcome will be published soon thereafter.

The new Register of Electors containing any revised polling districts will be published on 1 February 2026. Any new polling districts and polling places will become effective at all elections held after this date. Electors will be notified in writing if there have been any changes to their polling place.

Polling Districts and Polling Places proposals

The proposals for this review have been prepared using the new Surrey Electoral Divisions introduced following the electoral review of [Surrey County Council by the Local Government Boundary Commission for England \(LGBCE\)](#). These Divisions will take effect at the elections on 7 May 2026 for the Shadow Unitary Authority for East Surrey and will be referred to as Wards.

Acting Returning Officers Representations

Due to new divisional boundaries a part of the current polling district IA must be placed into a newly created polling district ID. This is because polling district lines cannot cross electoral boundaries. It is recommended that Oxshott Village Centre is

the most convenient polling venue for ID as it is located at a reasonably close proximity to all electors.

Save for the changes that we must make to the polling district ID, I recommend there are no changes to the established polling districts and polling places. These arrangements are working well.

* This Polling District must exist due to the cross over of boundaries. There are currently no residential properties within this polling district.

Acting Returning Officers Representations

It is recommended that the polling place for polling district BB be changed to Long Ditton Village Hall. This is because there has been continued support to no longer use Long Ditton Infant School as a polling venue (the current venue). Due to boundary changes it has been possible to alter the polling venue from Long Ditton Infant School to Long Ditton Village Hall. Accordingly, Long Ditton Village Hall is recommended due to its reasonably close proximity and appropriate size for the electorate in polling district BB.

Save for the changes we propose for the polling venue in BB, it is recommended there are no changes to the established polling districts and polling places. These arrangements are working well.

Acting Returning Officers Representations

It is proposed that the current polling districts of CA and CB be merged to become CA, and that the Vital Village Community Hub, (formerly known as the Thames Ditton Community Centre), is the most suitably located polling place for electors in this polling district. As a consequence of this proposed change, it is recommended that current polling district CC becomes CB.

Save for the changes we propose for the existing polling districts CA & CB, it is recommended there are no changes to the established polling districts and polling places. These arrangements are working well.
